

Technical Assistant

Our Group

- 60 years in the packaging industry, started in France, from wood to metal
- Offering economical and environmental friendly packaging solutions, providing a full service including rental, logistics, maintenance and delivery of the empty packagings
- Products innovation - different types of pallets and crates to fulfil customer needs and support customers throughout their logistics process
- Covering all the markets from the United States to Asia, Russia, India, Europe and more, with 11 offices across the world
- We are one of the two suppliers of metal boxes in the whole world!

We believe in

- Customer first
- Quality, Service and Innovation
- Our employees' know-how and experience is our strength

How you will contribute

- Inspect the finished product (metal boxes) at our manufacturing site using our quality standard
- Train workers at manufacturing sites
- Constantly traveling to our warehouses (10 warehouses in China) to train and supervise the workers at warehouses for metal box inspection, washing and repair, maintaining quality services.
- Visiting customer's or end-user's factories to correspond to technical issues (how to use our metal boxes & how to return empty metal boxes or any type of technical problems that they are facing)

Why we will love you

- At least 2 years of relevant working experience
- Responsible and proactive
- Engineering major
- Quality Management Systems experience with ISO9001 is preferred
- Willing to travel (mostly in China domestic but sometimes within Asia)
- Responsible and proactive
- English speaking (fluent both in written and spoken)
